Search All Physicians

Every physician in the Sentara system has met the highest medical standards, which include verification of educational achievements (medical school, internship, and residency), board certifications, State of Virginia licensure and continuing medical education. Periodic reviews assure they still meet these and other quality standards.

Select a physician from over 2,600 of the area's primary care physicians and specialists, by using the **Quick Search** or using the **Physician Locator** (*see note below) to search by several physician fields.

Physician Quick Search

Enter as many letters of a physician's last name as you are sure of:
